Used
some
parts
of 6x provided
to be f-

1. On Monday, 14 September 65 new students will begin studying a foreign language in the Language School. 40 are full-time students the remainder part-time students. This includes 3 full-time Arabic students who will begin training 5 October. This is the largest single days enrollment in several years. Added to this figure are the 36 full-time and 59 part-time students already enrolled. Arabic, Japanese, Lao and Turkish show a welcome increase in enrollment. Persian, Portuguese, Polish, Greek and Indonesian remain depressed. Except for the part-time Hqs. Russian courses, no new Russian students have been enrolled, which is most unusual. Although Spanish enrollment is normal the source of the students is a matter of concern. Previously the bulk of our Spanish students were from WH, now only three of ten are WH personnel.

2. The last of our summer employees, [REDACTED] departed 11 September. Our summer employees this year were a good crew and made a significant contribution to the IS effort while learning some useful things about themselves, the Agency and government employment generally.

3. The Language School has accepted a translation project for the NE Division. NE was unable to get a 500 page document translated in normal channels so called upon us for help. This is in a language in which we presently have few students so the instructor staff will be able to handle this until such time as a student load makes this impractical.

4. On 9 September [REDACTED] conducted a registration and briefing session for the Before-and-After-Hours Language Training Program. Of the 100 students currently enrolled, 82 were present, and seven of the eight instructors also attended. A welcome was extended by Chief, IS, and [REDACTED] Dept., presented his lecture on audio-lingual language learning.
